

AQUATHERM NITRA

International trade fair for technical building equipment

4. – 7. 2. 2025

AQUATHERM NITRA IS THE LARGEST TRADE FAIR IN SLOVAKIA

The only event profiled only in the field of technical equipment of buildings in Slovakia with the largest representation of domestic and foreign manufacturers, representative companies and service suppliers.

Aquatherm Nitra presents a comprehensive tour of the technical equipment of buildings, environmental technology and technologies for energy-efficient public and commercial buildings.

Nomenclature of the trade fair

- | Heating, energy, technological equipment
- | Renewable energy sources
- | Cooling, air conditioning, ventilation
- | Measurement, control and regulation
- | Water, sewage, gas
- | Sanitation, bathrooms and design
- | Installation technology and accessories
- | Facility management

WHY PARTICIPATE IN THE FAIR?

Aquatherm Nitra is comprehensive platform for the presentation of TZB news for the professional and lay public.

The fair is an ideal place to meet designers, architects, assembly and service companies, developers, construction and investment companies, engineers, technicians, managers, buyers and public administration representatives, as well as the general public (B2C).

In cooperation with our partners, we are preparing a rich professional accompanying program that will focus on the most modern trends, innovations and new challenges, especially in the field of renewable energy sources, photovoltaics, heat pumps and energy-saving solutions – that is, technologies that will play a key role in a sustainable future constructions.

Aquatherm Nitra represents an ideal opportunity for exhibitors who want to present their latest products, technologies and services to a wide range of professionals and the lay public. You will gain valuable business contacts, establish new partnerships and have the opportunity to follow current trends in the field.

WHAT WILL BE AQUATHERM NITRA 2025?

- | 4 days of the fair = 4-day professional accompanying program focusing on modern trends and innovations from the field of technical building equipment across the nomenclature with a strong emphasis on a sustainable future
- | Attendance at the fair (2023) 17,899 visitors in 4 days, and according to the evaluation of data from ticket registrations, almost 80% of them were B2B
- | More information on our website www.aquatherm-nitra.com

NEW – EXHIBITOR CARD

The creation of a new feature of the Aquatherm-nitra.com website consists in the creation of a „profile card“, which will have the nature of an invitation, for each exhibitor. It will also include the creation of a unique code that each exhibitor will insert on their website. The code will display an icon with the Aquatherm Nitra logo on the exhibitor's website. The icon will allow you to click on the invitation of a specific exhibitor, which will be part of the aquatherm-nitra.com website, but only yours.
